

BAMBOO & SAND

The SAND evokes the beach, endless expanses ...

The sun shines in this collection, from rise to set, from spring to autumn : sandy yellow, corn, straw, ochre, brick red, rust, Sienna, bamboo green, sky blue ...

The BAMBOO widens the horizon towards Asian forests. Back to the roots and meditation with this natural product, which is handmade by craftsmen.

The combination of BAMBOO and SAND creates a link between two very different worlds, both of them looking for a life in perfect harmony with nature.

Silk fabrics finish the range.
