

# OASIS

The word "OASIS" evokes nature, vegetation, refreshing resort, quietness...A very suitable name indeed for Omexco's new collection of natural wallcoverings.

Different grasses and plant fibres have been selected for this range, each of them with specific features: a fine and irregularly coloured arrowroot, a very wide and strong bamboo, an original combination of smaller bamboo strips and jute fibres, a hollow rush grass, a woody reed grass, and knotted jute fibres. All these fibres have been selected, washed, sun-dried, and hand-woven on traditional looms by craftsmen, then paperbacked.

They are shown in their original colours and in cosy colours varying from light yellow, soft green and lilac to deep brown and wine colour.

All wallcoverings are 91 cm wide and delivered cut length.

Matching silk (120 cm wide) and linen (150 cm wide) fabrics complete the oasis of harmonious colours and natural materials of "OASIS".
